This transcript is a detailed record of all components completed as part of the qualification, along with the grades achieved. This is not a certificate.

A component is defined as a discrete part of a qualification which:

1. focuses on specific areas of the knowledge, skills and understanding assessed for the qualification, and
2. has a specific set of criteria against which learners' performance will be differentiated.

This transcript is not valid unless supported by the certificate for this qualification.

All of our paper certificates and e-certificates contain a unique QR code, either printed or embedded. The authenticity of a certificate can be securely verified, using the FutureQuals Secure Online Verification Service, by scanning this QR code with any QR reader app. Certificates can also be verified by visiting the FutureQuals website and entering key information from the certificate, including the learner's name and certificate number. Immediate confirmation of the certificate's authenticity will then be provided.
